SD Lever Type Sample Cutting Machine

Excellent performance of the SD Lever Type Sample Cutting Machines:

You can install a lot of kinds of cutter to cut a sample piece from material sheet.
Simply push down the lever and it is finished with one hand.

### Model SDL-200   For Soft Rubber, Soft Plastics, Unvulcanized Rubber and Others

Operation

1) Insert the cutter head fully into the cylinder cutter-receiving hole and fix it with the butterfly screw.
2) Put the cushion paper on the table then place the sample sheet on it.
3) Push down the lever with proper force to the lower stroke limit.

Major Specification

|	
Cutting Stroke	0-16mm
Force Ratio	1:30
Table Size	Approx. （W）220 x （D）290 mm
Cutter Hole	25 mm diameter
Size	Approx. （W）280 x （D）400 x （H）640 mm
Weight	Approx. 60 kgs
Accessories	1）PE Under-layer 1 pc. 2）Cushion Paper 30 pcs.
The lower stroke limit is equipped.	

Optional Accessories

Temperature Control Devices
System: Independent 2 Channels Control （Cutter and Table）
Temperature Range: Room to 180 centigrade
Power Supply: AC100V, Single Phase, 50/60Hz, 800W
This has excellent performance in cutting a hard thermoplastics sheet.

The Electric Heating Sample Cutting Machine and the Electric Heating Super Dumbbell Cutter
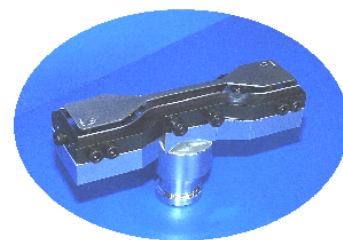

Model SDL-100   For Soft Rubber, Soft Film and Others

Major Specification

Cutting Stroke	0-16mm
Force Ratio	1:15
Table Size	Approx. （W）220 x （D）230 mm
Cutter Hole	25 mm diameter
Size	Approx. （W）220 x （D）350 x （H）610 mm
Weight	Approx. 25 kgs
Accessories	1）PE Under-layer 1 pc. 2）Cushion Paper 30 pcs.

SUPER DUMBBELL CUTTER

Model: SDK-500
Standard: According to JIS K6251-5, JIS K7113-2, ISO37-1 and others.

HANDLING ITEMS

Manufacturing of various kinds of Physical Testing Machines,
Specimen Forming Molds for testing and Related Equipments
SD type Sample Cutting Cutter and Related Equipments
